Profis ohne Grenzen

**CONSISTENCY
& PROGRESS**

THE COMPANY **MAX WILD.**

Max Wild GmbH is a family business through and through. Led by generations of the Wild family, the construction company, which began as a small fleet of vehicles under Max Wild senior in 1955, is now one of the leading partners for construction and logistics. Our family has now grown to over 650 "Professionals without Borders". Together we continue the tradition of Max Wild and write it with success and through innovation – always further on – in the commitment to our craft, our customers and the future together.

At Max Wild we live our principles. One of which is to lead and complete every project with heart and mind. Our passion is, on the one hand, the drive, and on the other hand, the claim to achieve the best possible result for our customers. As a responsible construction company, we are always deeply aware of one thing: even when we develop and execute projects for clients, we always build for the greater good – for families, communities, towns and cities and the common good of all.

PERFECTION FROM PLANNING TO PRACTICE. **OUR PROFESSIONALS IN ACTION.**

RELIABLY AND SAFELY TO YOUR DESTINATION.

Max Wild operates as an internationally active logistics company in the field of transport, heavy cargo storage and project logistics. Our experts will take care of safe and reliable delivery on your desired date – to almost any place in the world. Our highly trained staff will take care of the permits required for your project and take over all measures for its implementation. We attach great importance to perfect coordination of deadlines with our customers and partners.

TAKING HEAVY LOADS EASY IS WILD.

SPECIAL AND HEAVY LOAD TRANSPORTS

SPECIAL AND HEAVY LOAD TRANSPORTS.

With our own large fleet of vehicles, at Max Wild, we take on regional, European and worldwide transports for you with a load weight of up to 500 tonnes. We have the most modern vehicles with the latest technology at our disposal. In advance, our experts carry out loading feasibility tests to ensure the greatest possible safety for your transport. You also don't have to worry about national or international forwarding including documentation and customs clearance.

We take care that your freight reaches its destination quickly and reliably

- Regional, European, worldwide
- In-house permit and escort service
- Individual advice and planning
- Our vehicles - larger / wider / heavier

READY-MODULE TRANSPORT BY MAX WILD.

Do you have a prefabricated module that needs to go to the construction site? We will gladly take on this job for you! Whether concrete, brick or timber modules, residential or commercial construction – we have the know-how!

We offer you the complete solution in the building block principle. You decide which part we take over for you.

- Site and access inspection included
Preparation of a survey protocol
- Thorough organisation and clarification of open points with the authorities
- Organisation of cordoning off measures (if required)
- Transport implementation with the most modern fleet of vehicles and experienced drivers
- Provision of a mobile crane

PROJECT LOGISTICS, CUSTOMS CLEARANCE AND INTERNATIONAL ORGANISATION.

We are your one-stop shop for project logistics. We develop customised solutions, provide individual and personal advice, always taking into account the best use of your resources. From storage to packaging to assembly - Max Wild takes care of all services that are important to you and for your project.

- Our services**
- Holistic planning and project management
 - Assembly services (advice on vehicle, lifting and hoisting technology)
 - Company relocation and production relocation
 - Industrial relocation and industrial assembly
 - Route surveying
 - Transport with customs clearance
 - Air freight organisation
 - Sea freight organisation
 - Advice and service on all aspects of packaging
 - Packing at our own heavy-duty warehouse or at your premises
 - Your goods safely unloaded at your customer, no matter where!

"Our team knows that there is a solution to every challenge."

Jochen Wild
Managing director

FROM PLANNING TO TRANSPORT.

DO YOU WANT TO MOVE MOUNTAINS? WITH OUR PROFESSIONALS FROM HEAVY MOVE – ITS NO PROBLEM!

Our flexible Fluidts® shifting system offers the ideal solution for special challenges. Lifting, lowering and moving heavy loads and goods from the most diverse areas can be implemented without any problems thanks to precise planning. Would you like to learn more? Get in touch with our team.

YOUR TRANSPORT. IN SAFE HANDS.

TRANSPORT ESCORT. **SAFELY TO YOUR DESTINATION.**

With our own BF4 vehicles, we are expanding our range of services to include another core competence. The latest generation with variable message sign system (RGST 2015) makes it possible to accompany large-volume and heavy transports completely independently. The new escort vehicles will not only relieve the police. The flexibility and planning reliability of the transports are also increased because agreed deadlines can be implemented precisely. Of course, our team is appropriately trained and in possession of valid authorisation to drive BF4 escort vehicles.

Every large-volume and heavy transport always requires precise planning to ensure that the process runs smoothly. As the customer, the focus is on you. That's why we discuss all the important transport details in advance and provide you with comprehensive advice.

OUR LOGISTICAL CENTREPIECES.

HEAVY CARGO AND WAREHOUSE LOGISTICS.

Whether temporary storage or a fixed contingent of rented square metres - we have the solution!

- Total storage area: 14,000 m²
- Ridge height: 14 m
- Overhead cranes with 63 to / 16 to / 10 to lifting capacity
- Height adjustable loading ramp
- 2,000 shelving spaces in cantilever racking (load capacity up to 5.0 tonnes/shelf metre)
- Various forklifts with up to 32 t load capacity
- Assembly areas with underfloor heating and other technical preparations

HEAVY CARGO – WAREHOUSE LOGISTICS / PACKAGING

CONSTRUCTION TRAFFIC. FAST AND UNCOMPLICATED.

DAILY APPROX.

10,000 tonnes

OF CONSTRUCTION WASTE, GRAVEL,
SOIL, STONES AND MUCH MORE.

BULK GOODS TRANSPORT AND CONSTRUCTION SITE TRANSPORT

BULK GOODS TRANSPORT AND CONSTRUCTION SITE TRANSPORT

Earth, stones, humus and much more. The 80 lorries that are on the road for Max Wild in construction traffic come to our and your construction sites in the field of earthworks and road construction or demolition and drive to our gravel pits and recycling sites. On order, we transport your bulk goods to where you need them. Max Wild is thus a strong partner for transport issues – especially for construction companies.

Our lorries are equipped with the latest technology. For example, if required, we take on transports with our fully thermally insulated trailer, which has constant sensor temperature monitoring. We value economy and driving comfort, paying respect to both the environment and our drivers.

SWEEPER MACHINE. RELIABLE CLEANLINESS FOR RENT.

Our sweeper machine is a real high-tech machine that has a lot to offer, from double-sided sweeping to high-pressure cleaning. Whether a street, courtyard or hall – with our sweeper you can clean dirty and mossy surfaces quickly and reliably. High-pressure street cleaning and high-pressure cleaning with a hand lance (250 bar) is an effective means where sweeping is no longer sufficient and is so ideally suited for paved areas. Our sweeper also performs valuable services in subsoil preparation for roadway rehabilitation. We dispose of all sweepings professionally in accordance with the Closed Substance Cycle Waste Management Act. And the best part: You can rent this cleanliness. We value economy and driving comfort, paying respect to both the environment and our drivers.

AREAS OF USE

- Street sweeping (both sides)
- Courtyard sweeping
- Hall cleaning
- Subsoil preparation for roadway rehabilitation
- High-pressure road cleaning (250 bar)
- High pressure cleaning with a hand lance (250 bar)
- Pavement cleaning

TECHNICAL DETAILS

- Hydrostatic drive (infinitely variable driving speed)
- High pressure system 250 bar
- Rear suction
- High pressure front wash bar
- Front plate broom (both sides) - unit for removing weeds and for sweeping in front of the front axle, foldable and telescopic
- Sweeping widths from 650 to 5,000 mm
- Leaf suction device
- Suction hopper for picking up coarse materials

AREAS OF USE

- Suction of solid and loose material of any kind
- Suction of flat roof fills, green roofs and false ceilings
- Removing gravel from flat roofs
- Cleaning of ditches, road gullies, verges and medians as well as in the rail area
- Exposing tanks, foundations (drainage) and pipes
- Draining tanks and containers empty
- Tree and root rehabilitation by replacing the soil without damaging the root system

WILD AND ABSORBENT – FOR YOUR USE.

SUCTION EXCAVATOR FROM MAX WILD

Conventional soil excavation often carries the risk of damaging existing piping systems. In addition, the work often requires a lot of space for the vehicles and equipment used. The suction excavator technology simply “sucks in” solid or loose material such as stones, gravel, sand and earth, but also mud, water and snow on your construction site. In contrast to excavating with an excavator shovel or jack hammer, the application thus ensures a significantly lower risk of damage to the supply lines and surrounding structures.

The suction excavator with a tank volume of approx. 12 m³ works according to a patented suction principle. With this method, the fan generates an air flow and a maximum negative pressure. The suction hose can be moved in three dimensions. At the hose inlet, loose material is captured by the air flow and pulled inside. All particles are deposited in the collection chamber and the air flow is cleaned.

CONTAINER SERVICE. DISPOSAL IN ACCORDANCE WITH REGULATIONS.

Max Wild is your competent and reliable partner for the disposal and recycling of mineral waste and residual materials. In the private as well as the commercial sector, we offer you containers in several sizes for a wide range of disposal tasks.

- Various containers in several sizes
- Flexible and reliable partner for private and business customers
- Quick order via our online shop

OUR CONTAINER SIZES

Roll-off container 10 m³

Roll-off container 36 m³

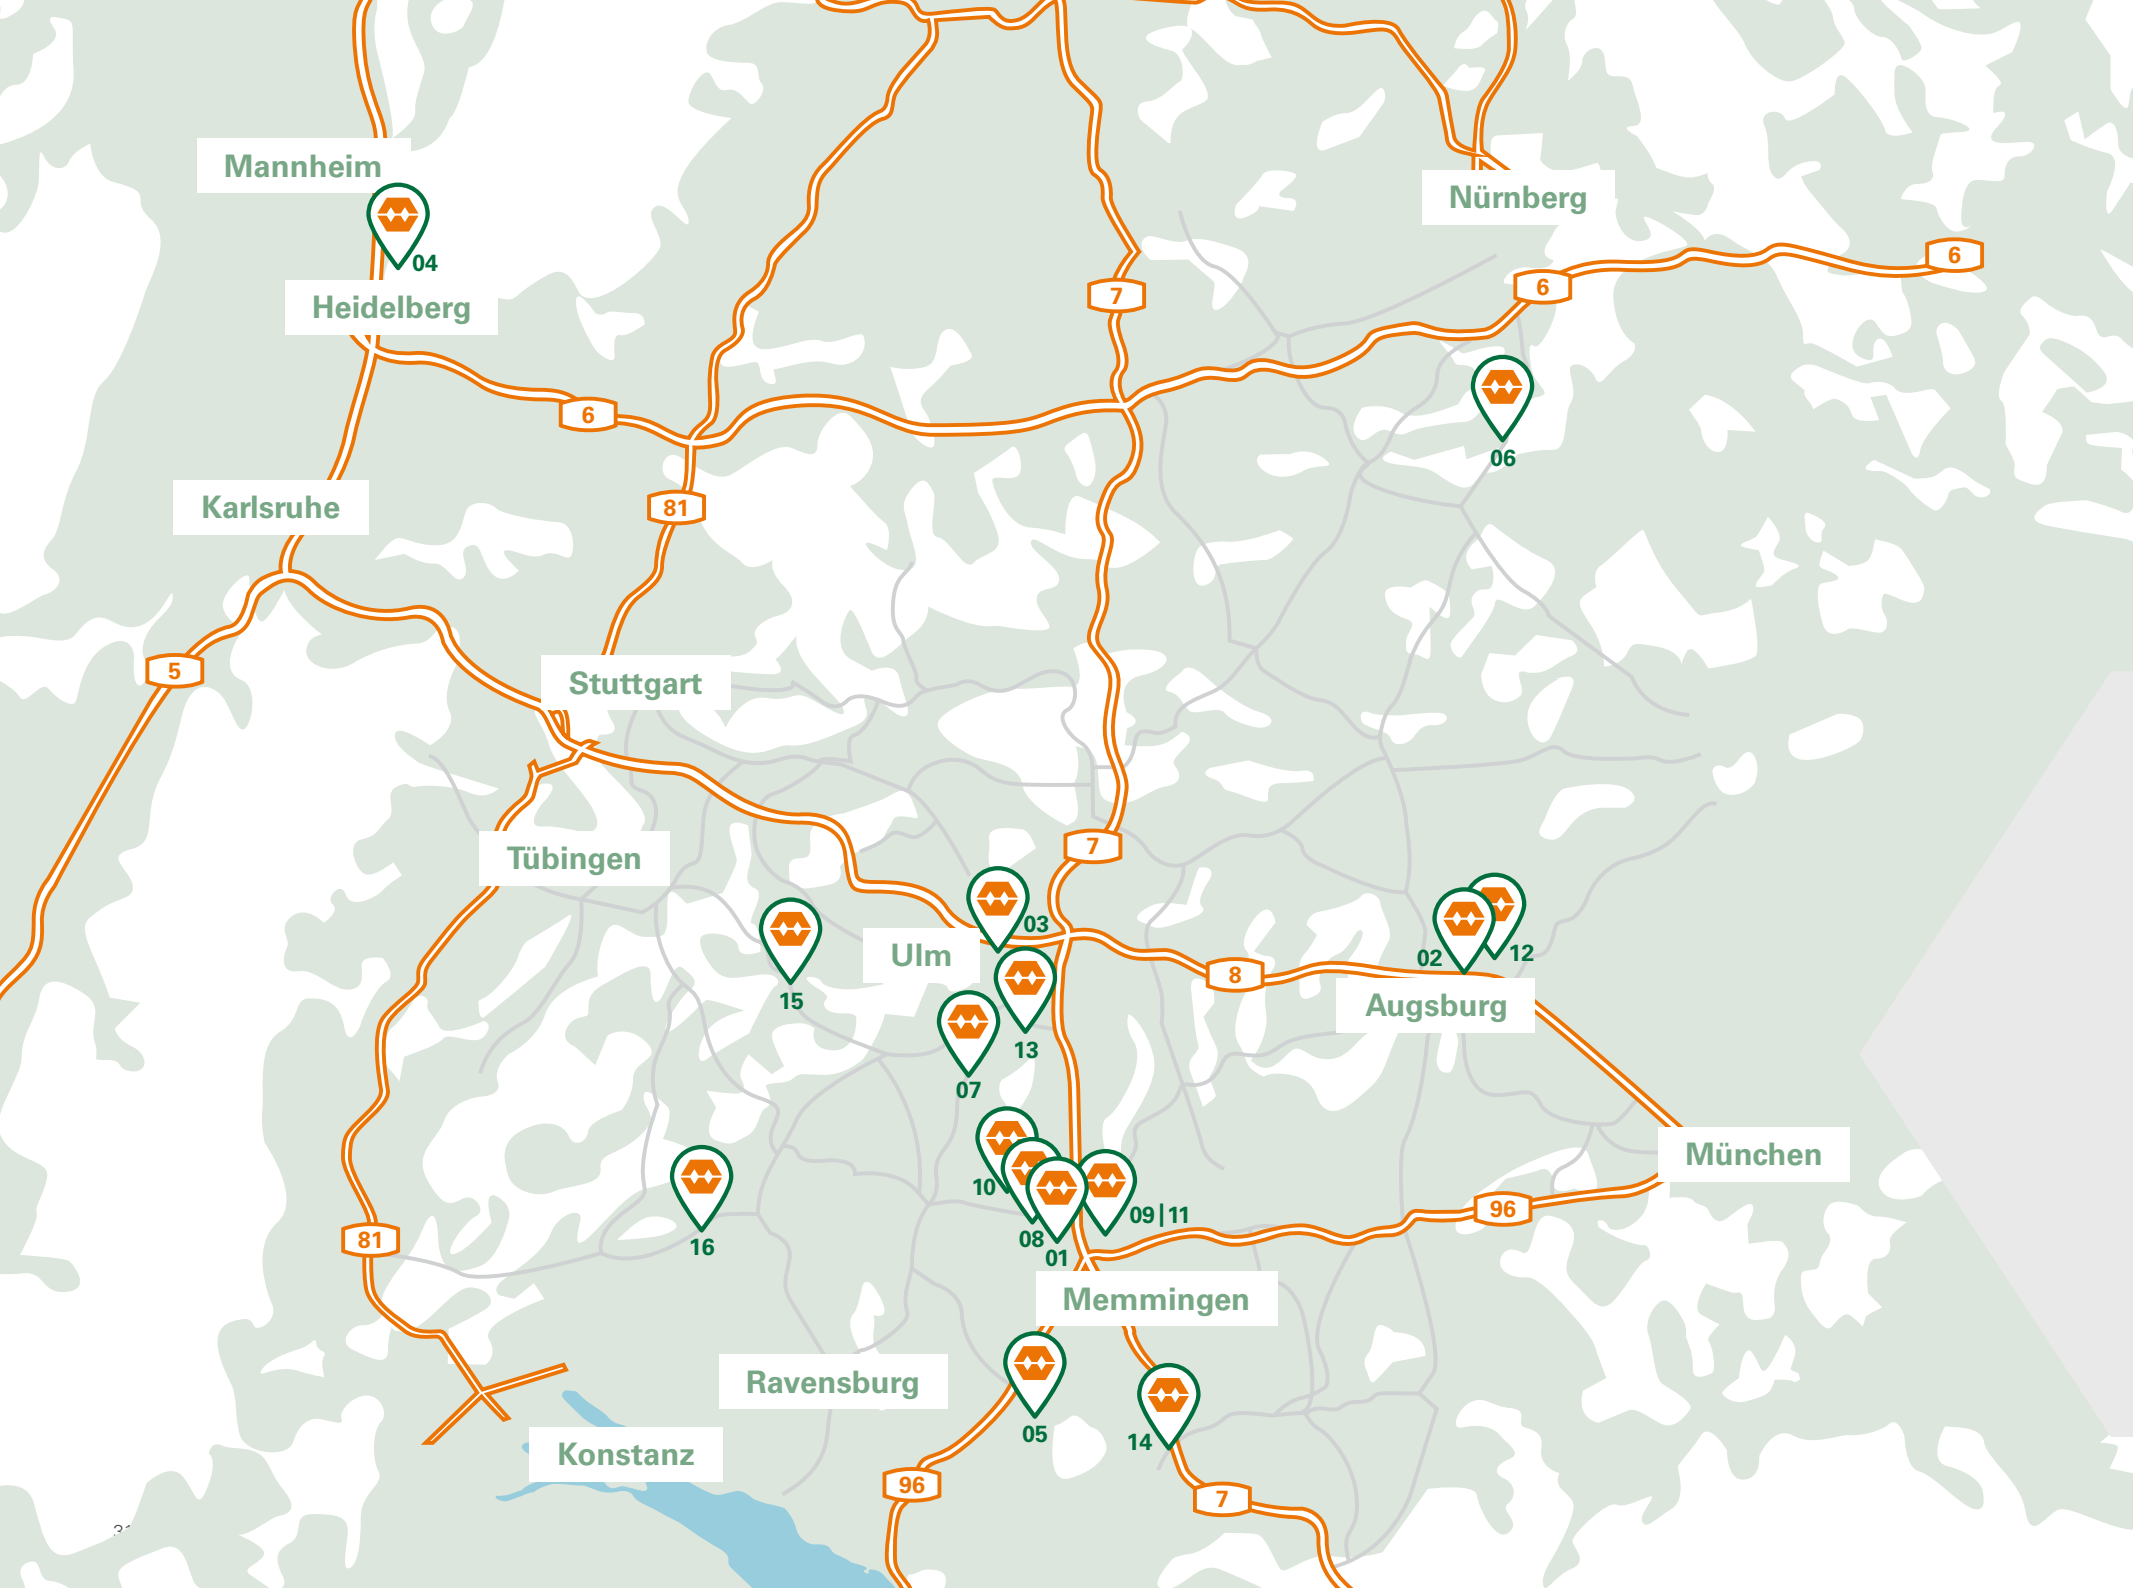

Sedimentation trough 7 or 10 m³
With cover

Sedimentation trough 7 or 10 m³
Without cover

READY TO USE NEAR YOU.

Across Germany, Max Wild connects a total of seventeen locations, gravel pits and construction material recycling centres – but our true home are the many job sites, roads and construction projects that link our expertise across the many locations. Mainly based in the south of the Federal Republic of Germany, as true professionals without borders, we not only manage projects throughout Germany, but also beyond the country's borders. As a partner, we are always close to you and at work wherever quality, trust, reliability and service are required.
